DETAILED ACTION

The Office Action is responsive to the applicant's amendment filed on April 27, 2007.

Claim Objections

1. Claims 1-9 are objected to because of the following informalities:

Claim 2: page 5, line 3, "said motor" should be change to -- a motor -- to overcome the insufficient antecedent basis for this limitation in the claim.

Claim 7: the limitation " for transferring operating pressure exterior to the inner housing into the inner housing" is confusing, because it is unclear how the pressure **exterior to** the inner housing **into the housing**. This can be corrected as: -- for transferring operating pressure exterior of the inner housing into the inner housing for producing contacting pressure between said inner housing and said rotors --

Appropriate correction is required.

Response to Arguments

2. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of objection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of objection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3748

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
